

DEC 07 1982

Removal of the Marshall Road Dump Site from Consideration for the
National Priorities List

W/ William B. Hathaway

William B. Hathaway, Deputy Director
Air & Waste Management Division (6AW-DEP)

Harold Snyder, Chief
Discovery & Investigation Branch (WH-548-E)

TXD980745616

I would like to confirm my understanding of our phone conversation on the evening of Wednesday, November 3, 1982, regarding the Marshall Road Dump Site in Crosby, Texas. At that time you agreed that this site would be removed from consideration for the National Priorities List (NPL) based on the following:

- a) the Region's recommendation (memo of November 3)
- b) a letter from Texas Department of Water Resources stating that the drums were removed and the pit excavated
- c) sample results from the pit bottom
- d) the fact that the site is not currently on the Interim Priorities List

This information has already been provided to your staff and copies are also attached to this memo.

I would appreciate your written verification of this agreement.
